

Please take a mask.

To reduce the risk of COVID-19 infection, all patients and visitors over the age of 12 must wear a face mask while in the clinic. If you do not have a face mask available, we will provide you with a single-use mask to wear.

To stay COVID free, do the 3:

1. Wash or sanitise your hands
2. Physical distancing (1.5m)
3. Have the COVIDSafe app

Also stay at home if you're unwell and get tested.

If you choose to wear a mask, it is important:

Wash your hands before putting on the mask

Make sure it covers your nose and mouth and fits snugly under your chin, over the bridge of your nose and against the sides of your face.

Do not touch the front of the mask while wearing it or when removing it. If you do touch the mask, wash or sanitise your hands immediately. Do not allow the mask to hang around your neck.

Wash or sanitise your hands after removing the mask.

***Single-use masks should not be re-used and should be discarded immediately after use.**

Important: People with chronic respiratory conditions should seek medical advice before using a mask.
